Recorded response boundaries

Reported responses are listed in the current facts when supplied. Unknown response details remain unknown. No external execution or receipt is established by this local record.

Intended recipient

SYN Telco B / designated human intake team
Human assessment of whether the reported SMS concern falls within the mobile provider remit; do not assume the provider sent the SMS or that SIM swapping occurred. Local draft only; sharing permission unverified. Sharing permission remains unverified unless explicitly recorded. No sending performed.

Proposed local preparation (acceptance is not execution)

- REC-02 v2 [accepted]: Prepare a local SYN Telco B human intake draft.
  Basis: EX-G02 v1; SYN Bank A / Intake Officer; priority 2: Prepare in parallel with REC-01.
  Limit / uncertainty: Approved synthetic prototype guidance only; no authority for real-world action.
  Limit / uncertainty: Also requires S4 to explicitly identify SYN Telco B as the person's mobile provider and configured human intake responsibilities; this limited draft is not a runtime matcher.
  Limit / uncertainty: Unknown sharing permission permits local drafting only; no sharing or verification asserted.
  Limit / uncertainty: Do not infer SIM swapping or change a mobile service.
  Limit / uncertainty: External sharing would require human verification of permission and receiver remit; no sending occurs.
  Limit / uncertainty: The receiving human intake team verifies whether the concern falls within its remit; sharing permission remains unverified.
  Limit / uncertainty: C08:CONTACT-01: unknown; preserve this gap.
  Limit / uncertainty: O07:: unknown; preserve this gap.
  Limit / uncertainty: Reported source S1: I received a text message at 09:00 on 16 October 2026 claiming to be SYN Bank A and saying that my account needed verification.
  Limit / uncertainty: Reported source S4: I use SYN Telco B for my mobile service, and I have not contacted either organisation about this yet.
- REC-03 v2 [accepted]: Optionally prepare a separate summary of existing SMS clues for human assessment.
  Basis: EX-G03 v1; SYN Bank A / Intake Officer; priority 3: Optional, lower priority.
  Limit / uncertainty: Approved synthetic prototype guidance only; no authority for real-world action.
  Limit / uncertainty: Also requires existing SMS clues and source references; this limited draft is not a runtime matcher.
  Limit / uncertainty: The employee may decline duplicate preparation; rejection retains facts and gaps.
  Limit / uncertainty: Do not request new materials or claim the SMS is verified.
  Limit / uncertainty: Existing SMS clues and sources only; may be declined as duplicate.

Limit / uncertainty: Human staff decide whether a separate existing-clue summary is useful; no new materials are required.

Limit / uncertainty: Reported source S1: I received a text message at 09:00 on 16 October 2026 claiming to be SYN Bank A and saying that my account needed verification.

Limit / uncertainty: Reported source S5: I have the text message on my phone, but I have not provided any material to the employee.
